WHAT I SPEAK ON

01

Building an AI strategy that lasts

Where AI is worth the investment, where it isn't, and how to turn scattered experiments into durable advantage.

02

Governing AI in a world of new rules

Fast, responsible AI adoption as regulation arrives, using his Tech Traffic Light Tracker® to decide what to green-light and what to pause.

03

Who owns what AI creates?

The ownership, copyright and royalty questions every organisation using generative AI will have to answer.

04

AI and the creative industries

How AI is reshaping film, music and content, from an award-winning AI filmmaker and musician.

05

How AI hijacks your brain's love circuits

The neuroscience of AI, attention and trust, and how to stay in control of it. His most-watched talk.

06

AI's real story, and the road to AGI

Where AI actually came from, why the popular history gets it wrong, and what artificial general intelligence would really mean.

AS SEEN AT

On stages, in boardrooms and in the press – and many more.

WHAT PEOPLE SAY

“

Matt skillfully guided discussions, ensuring they were both insightful and engaging for everyone involved. I wholeheartedly recommend Matt for his expertise, effective moderation, and engaging presentation style.

Maisie Holder

Group Director, InspiredMinds!

“

His in-depth and well-rounded knowledge combined with great industry-led and creative insights make him both a truly compelling speaker and collaborator in the AI space.

Kenneth Damien

Technology Lawyer

“

Thank you for your artful moderating, Matthew! It was a really enjoyable discussion.

Laura Herman

Head of AI Research, Adobe
